WEB DEVELOPMENT

Web apps and websites, from the screen to the back end

Websites, web apps and the back end behind them, on React, Node.js, Python and Django. With AI agents and integrations when your process needs them.

PREPARED BY

Owlab
Tallinn, Estonia

STACK

React · Node.js · Python · Django

01 What we do – the whole web product, one team

- **Web apps and platforms.** Project management software, a social network for lawyers, a medication inventory platform: web apps people work in every day.
- **Websites.** Fast company and product websites, designed and built by the same team.
- **Back ends and APIs.** Python, Django or Node.js behind the web app and the mobile app, with the integrations to your systems.
- **AI inside.** AI agents, n8n workflows and AI-powered integrations, built into the web app by the same team.

02 Case studies – web apps we built

- **Koala Desk.** Cloud project management software for small project teams. owlab.group/case-studies/koala-desk
- **LawThor.** A social network for trusted lawyers from the Baltic states. owlab.group/case-studies/lawthor
- **Viebeg.** A medication inventory and purchasing platform. owlab.group/case-studies/viebeg
- **Campy.** A system for creating, managing and analysing ad campaigns with user rewards. owlab.group/case-studies/campy

03 Common questions – we hear.

- **Which stack do you use for the web?** React on the front end; Python, Django or Node.js on the back end. The stack follows the project.
- **Can you take over an existing web app?** Yes. We start by reviewing the code, then agree the first fixed-price piece. Apps built on Lovable, Bolt or v0 too: we finish them or move them to your own codebase.
- **Can we start small?** Yes. The first step is a small, fixed-price piece: a pilot, a first stage or one module. It starts at $1,000. You pay half at the start and half after we check it on your data.
- **Who owns the code?** You own the code and IP when the project is completed.
- **Do you sign an NDA?** Yes. We sign an NDA on request and share project details only with your approval.
