## INTRODUCTION

### General information

SPEAKLY is a powerful language learning tool to help you maximize your potential and guide you through the process of acquiring a new language in the most efficient way. It's based on science and years of experience. Start learning with SPEAKLY. This. Very. Moment.

You might have experienced that learning languages is an arduous task. We get you. We have been there – studying languages for years in language schools. We've been getting patches when a native speaker simply says "Hi!" But do you remember how you learned your mother tongue? What that process is automatic and effortless that you didn't even notice it? That's exactly what SPEAKLY will do for you – help you acquire a language in the most natural way, using the power of technology to create a fully personalized learning experience.

**CLIENT**  
Ott Ojams  
Partner at Speakly OU

## PROJECT

Owlab helps to build an innovative language learning solution from Eastern Europe.

<b>CLIENT</b> Startups	<b>INDUSTRY</b> Education	<b>TYPE</b> Web service	<b>TIME TO DELIVER</b> 9 months
---------------------------	------------------------------	----------------------------	------------------------------------

The service helps users to improve memorizing, writing & speaking skills learning new foreign languages. With SPEAKLY you can genuinely **LEARN** the language that you are learning. And all in the most fun way – focusing only on the things that you actually need and wanting to use the language from day one.

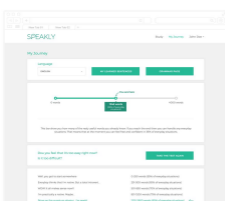

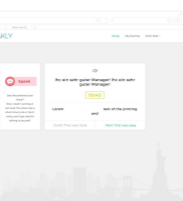

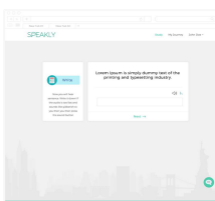

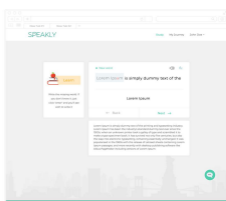

The service was developed as a web solution based on the existing language learning system that is already used for individual & group studies available everywhere in Europe – from Portugal to Finland.

## Testimonial

“Working with Owlab's professional team of developers has been a very good experience. The main keywords are quality, really professional attitude and flexibility. I would recommend his services to everyone who wants to develop a professional language learning program. Only good things to say about our long-lasting cooperation.”

Ott Ojams, Speakly
